

- SUNNYMEDE SCHOOL - 1918 to 1949

The school was to be known as "Warrah Lea School" but after a request by the local residents the name was changed to Sunnymede as the land for the school was given by the Sunnymede Estate. Sunnymede Provisional School commenced in October 1918 with an enrolment of 18 students on two acres of land resumed from Frederick George Baldwin. The original school building and fence were erected by the local residents with a £25 grant from the government. This school building was replaced in May 1922 with a school building transferred from Milvale after that school had closed. In January 1926 the school was converted to a Public School. Sunnymede School closed in December 1949.
